

WELCOME

Welcome to Accel at College Station Transitional Care and Rehabilitation Center

where you will experience an individualized treatment plan designed to enable you to achieve your maximum level of physical function and restore your independence. Choosing the right health care provider can be challenging. At Accel at College Station, we work to make that decision a little easier.

Accel patients have access to the following:

- Specialty physician-directed individualized plan of care for each patient's specific needs
- Electrical stimulation physical therapy (E-Stim): NuSteps, and stationary bike to improve muscle strength
- Progressive ambulation training
- Daily living training and safe transfer techniques
- Post-Surgical Care
- Patient and family education
- Healthy lifestyle programs such as smoking cessation, stress, weight reduction, nutrition assessment and education to promote healthy muscles and bones.
